An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 16-20 directed to a non-elected invention without traverse. Accordingly, claims 16-20 have been cancelled.

Allowable Subject Matter

Claims 6-10, 12-13, and 15 are allowable.

The following is an examiner's statement of reasons for allowance:

Claim 6 recites the combination of a transaction terminal, a host server and a means for establishing a debit account with a unique account number where the PIN customer selected and assigned at the terminal and during the transaction. None of the prior art (before the priority date of 6/18/98) shows or teaches this full combination. Claims 7-10, 12-13 and 15 are dependent upon claim 6.

The GB Samaan reference is a foreign reference of interest.

The Sensors & Instrumentation News article is a NPL reference of interest.

Art Unit: 3627

The Risafi et al. reference is cited for the similarity of claim 30. However, the current application has priority before the effective filing date of this reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
